

# Orientation

“The School of Public Health proudly ushered in its 4th Batch of Master of Public Health (MPH) students during the orientation ceremony held on October 4th, 2023. The event was graced by the presence of our Chief Guest, Dr. Deepak Saxena, the Director of the Indian Institute of Public Health, Gandhinagar. Dr Saxena shared invaluable insights, offering clarity to the newcomers embarking on their journey in the field of public health.

The occasion was marked by the release of the brochure for our forthcoming National Conference on Rabies, a collaborative effort with the Consortium Against Rabies – CARCON.

Embracing the journey towards a healthier world, we are excited to welcome our future public health champions.”
