Q. What training methodologies are followed in the Mydentist – D Y Patil collaboration ORE Part I Preparatory Course, and why is face-to-face training emphasized?

Ans: Face -to -face training is our USP.

I) ORE Part I Face to face training has several advantages:

1.Face-to-face training is the most effective method of faculty-student interaction.

2.It allows candidates to clear their doubts instantly through direct engagement with faculty members in a limited size batch.

3.In-person sessions also foster connections/networking among batch mates, encouraging group study and collaboration, which contributes to a more positive and enriching learning environment.

4.Moreover, many of these peers will become future colleagues, when candidates work with mydentist in the future.

II) Apart from the face to face training, we also provide elaborate online study material both from mydentist as well as from D Y Patil. You will be able to access the online study material till you clear ORE Part I

III)You will also be the part of the dedicated WhatsApp group, till you clear ORE Part I, where the faculties will answer all your queries.

IV)You can attend future cohort classes for your revision.
